

New products 1/3

421 - Masago arare - fine rice crackers - 300 g

container : foil pouch - origin : Japan

Ingredients : Rice powder (99,8%), emulsifier (E473)(0,2%).

Description : Arare are crispy rice crackers. These ones are made without GMO and they are gluten free. These arare were made to be as tiny and crispy as possible. That is why they are called «masago» which means «thin sand» in Japanese. **Flavor :** The tiny rice crackers are very crunchy.

Use : Arare are used to bring texture. In Japan they are added to tempura coating or in ochazuke and miso soup. Arare will bring crunchiness to your breaded fried chicken or salmon but also to your California rolls ! You can sparkle them on salad, broth, pasta, etc. Arare will also beautify and add crunchiness to chocolate, fruit skewers, cakes and mousses. **Preservation :** Keep away from sunlight, heat and moisture. Consume soon after opening.

194 - Azuki red beans vinegar - 150 ml

container : glass bottle - origin : Japan

Ingredients : Water (95%), azuki beans (5%).

Description : This unique vinegar is made from Azuki beans. The producer has patented a production process where he can make vinegar from leguminous plant and water only. This vinegar is produced in Hokkaido using locally grown azuki beans.

Flavor : This azuki vinegar is rich in amino acids, it has a dark color, a long and round taste and a complex aroma.

Utilisation : Azuki Beans vinegar is perfect for elaborating delicate seasonings. It can be used as a replacement for balsamic vinegar, to deglaze or in sauces. It is also delicious on top of rice, nothing more, just like that. **Preservation :** Store in a cool and dark place. Refrigerate after opening.

065 - Hand pressed yuzu juice - 100 ml

container : glass bottle - origin : Japan

Ingredient : Yuzu Juice (100%)

Description : Yuzu is a yellow Japanese citrus of about 100 g.

Flavor : Yuzu has a subtle and complex flavor something between tangerine and citron.

Use : The yuzu juice can be used instead of lemon in both savory and sweet preparations: sorbet, fruit salads, and cocktails. It can also be used in your sauces for fish and seafood.

Preservation : Keep refrigerated.

169 - 3 years old soy sauce - 150 ml

container : glass bottle - origin : Japan

Ingredients : Soy, wheat, salt.

Description : This soy sauce is a koikuchi soy sauce. It has been fermented naturally, without additive, and matured 3 years in Japanese cypress barrels. This soy sauce is made with Japanese soy and wheat and sun-dried salt.

Flavor : A flavor typical of koikuchi soy sauce: deep, long, round and very rich in umami.

Use : It can be used in all your preparations often in place of salt, it is preferable to use it as a final touch (for example for sushi, sashimi, or salad dressings) rather than for cooking, considering the high quality of this product. **Preservation :** Store in a cool, dry place, away from light. Refrigerate after opening.

078 - Soy sauce with kombu & dashi - 150 ml

container : glass bottle - origin : Japan

Ingredients : Soy sauce, rice fermented seasoning, modified starch syrup, dried bonito extract, bonito extract, kombu extract, dried aubergines, hydrolysed proteins, vinegar, alcohol, flavour enhancer (E621, E635), acidifier (E270), liquid smoke.

Description : This sauce combines soy sauce and dashi (Japanese broth).

Flavor : It has a nice salty and smoky taste rich in umami.

Use : This sauce can be used to accompany raw fish, flavor stews and in sauces.

Preservation : Store in a cool, dry place, away from light.

126 - Rice sushi vinegar - 360ml

container : glass bottle - origin : Japan

Ingredients : Rice vinegar, sugar, salt, flavour enhancer (E363, E621, E635), sweetener (E960).

Use : This artisanal vinegar is designed to flavor rice that accompanies sushi. It can also be used for salad seasoning or to make pickles.

Flavor : The flavor is sweet, slightly acidic and rich in umami because it contains Kombu.

Preservation : Store in a cool, dry place, away from light.

UMAMI SAS - 2, avenue Jean Moulin 94120 Fontenay-sous-Bois

SAS au capital de 305 000 euros - RCS 802 704 072 Créteil - SIRET : 802 704 072 00015 - TVA : FR25 802 704 072

**125 - Sumo Spicy Miso Sauce - 150 g****container** : plastic tube - **origin** : Japan

Ingredients : Miso mix (soybean miso, barley miso), sweeteners (sugar, glucose-fructose syrup), soy sauce (contains wheat), garlic, fermented rice seasoning, salt, red pepper, sesame oil, sesame, yeast extract, ginger, hydrogenated starch hydrolysate, isomaltulose, flavour enhancer (E621, E635), alcohol, thickener (modified starch)

Use : Miso is a fermented salty bean paste, which constitutes the bases of Japanese cuisine. This diluted miso has a dark red color and a tangy garlic flavor. It can be used as mustard or to marinade meat or to make sauces and mayonnaise.

Preservation : Store in a cool, dry place, away from light, refrigerate after opening.

**591 - Kojiya miso - 300 g****container** : plastic bottle - **origin** : Japan

Ingredients : Soybeans, rice, salt, alcohol. Ce miso est obtenu par fermentation de grains de soja pelés avec du koji cultivé par le producteur selon un savoir faire vieux de plus de 100 ans. **Description** : This miso is obtained by fermentation of peeled soybeans with koji. The koji used is cultivated by the producer in accordance with a traditional a 100 years old know-how. **Flavor** : This koji miso has a rich, full and very umami taste.

Use : The kojiya miso is a very flavorful miso that goes extremely well with vegetables. It is delicious diluted in a potage or mix with olive oil to season an avocado salad. This miso can be used in marinade, with porc for example, or to realize a beansprout and spinach stir-fry.

Preservation : Keep in a cool dry place, away from light, in the fridge after opening.

**103 - Ponzu with yuzu from Sakugi - 180 ml****container** : glass bottle - **origin** : Japan

Ingredients : Soy sauce (32,7%), rice vinegar (22,2%), yuzu juice (17,8%), fermented rice seasoning, water, sugar, bonito extract, salt, kombu extract, protein hydrolysate, dried bonito, shiitake extract, flavor enhancer (E363, E621, E635). **Description** : Ponzu is a popular Japanese sauce very fresh and deep made from soy sauce, dashi and Japanese citrus. It also often includes a little bit of vinegar or mirin. This ponzu is the perfect balance between the purity of Hiroshima rice vinegar and the intense flavor of Sakugi yuzu citrus. Sakugi is located in the Hiroshima prefecture. There, the temperature gap between day and night is very high and it made Sakugi the perfect spot for yuzu plantation. **Flavor** : Well balanced between the fullness of vinegar and the acidity of yuzu fruits. **Use** : Thanks to its taste both fresh and deep, ponzu is very easy to use because and goes well with European cuisine. It can be used as salad dressing, accompany scallops, white fish, fatty meats, avocados, asparagus or artichokes... **Preservation** : Store in a cool, dry place, away from light, refrigerate after opening.

**269 - Black tea smoked with Japanese cherry tree sakura - 50 g****container** : sachet paper and alu - **origin** : Japan

Ingredient : Black tea.

Description : This Shizuoka black tea is a unique product because it has been smoked with cherry wood. In order to make this smoked tea, tea trees are cultivated in the pure Japanese tradition according to the «chagusaga» method. In this method, grass is used as a mulch to protect and flavor tea leaves. The producer challenged himself to create unique teas by smoking them. It is a hard work of balance in order to create flavored tea without any additive, only with smoking. **Flavor** : A subtle mix between the flavor of Japanese black tea and the delicate cherry wood smoked notes. **Use** : This smoked tea can be enjoyed cold or hot. It goes very well with nuts or chocolate. You can simmer meat with it as well. Tea leaves and their strong flavor can be used as condiment or seasoning. **Preservation** : Store in a cool, dry place, away from light.

**270 - Hojicha tea smoked with Japanese cedar yakusugi - 50 g****container** : sachet paper and alu - **origin** : Japan

Ingredient : Green tea.

Description : This producer's vocation is to create flavored teas without any added ingredient, only using smoking. This hojicha, cultivated in the region of Shizuoka using the «chagusaga» method (with a mulch of grass), is then smoked with yakusugi cedar chips which give the tea a powerful woody aroma. Cedar has been used in smoking since centuries in China. **Flavor** : A subtle mix between the flavor of Japanese roasted green tea and the delicate cedar wood smoked notes. **Use** : This smoked tea can be enjoyed cold or hot. It goes very well with nuts or chocolate. You can simmer meat with it as well. Tea leaves and their strong flavor can be used as condiment or seasoning. **Preservation** : Store in a cool, dry place, away from light.

**209 - Smoked soy sauce (gluten free) - 100 ml****container** : glass bottle - **origin** : Japan

Ingredients : Soy, salt.

Description : This smoked soy sauce is gluten free. It is a tamari soy sauce, made without wheat nor additive. Once the soy sauce is made, it is smoked between 40 minutes with cherry wood. This process gives the soy sauce strong smoked flavors that highlight its fullness.

Flavor : Smoked taste, strong and very umami. **Use** : This smoked tamari soy sauce has a great balance between the taste of a typical tamari soy sauce and the smoked strong flavor that goes very well with burrata cheese, with a little bit of olive oil, but also as a seasoning for marinated fish.

Preservation : Store in a cool, dry place, away from light.

**299 - Black Garlic umami sauce - 180 g****container** : glass bottle - **origin** : Japan

Ingredients : Soy sauce, mirin, sake, black garlic, dried bonito, shiitake mushroom, kombu, brown sugar, cane sugar (contains soybean and wheat).

Description : This black garlic umami sauce is additive free. It is the perfect combination of exceptional Japanese ingredients very rich in umami such as dashi, soy sauce, mirin, sake and of course black garlic. With its full and umami taste, this black garlic sauce will highlight each of your daily dishes.

Flavor : A fruity ripe taste, very umami, with a long finish and tasty garlic notes. **Use** : Really versatile, black garlic umami sauce can be enjoyed as it is as a seasoning for sashimi for example. You can use it to marinate chicken before frying or barbecuing it, mix it with olive oil for a dressing, or dilute it with water or broth to create delicious soup base as well. **Preservation** : Store in a cool, dry place, away from light, refrigerate after opening.

New products 2/3

298 - Concentrated Black Ginger Syrup - 180 g

container : glass bottle - origin : Japan

Ingredients : Ginger, cane sugar, hebesu citrus, black ginger.

Description : This sirup is made with black ginger, Okinawa cane sugar and hebesu citrus juice, a citrus that reminds of sudachi but is cultivated in Miyazaki. Black ginger is ginger that has fermented 3 weeks, becoming 50 times richer in shogaol than fresh or dried ginger. Shogaols are one of the spicy component sthat can be found in ginger. They act on body temperature and metabolism increase and take part in hepatic cells vitalization or diminution of articular pain.

Flavor : A strong ginger taste, with citrus fresh notes. **Use :** Perfect to warm you up during winter, just diluted in hot water, but also to accompany your sweet treats like pancakes, fruit salad or yogurt. **Preservation :** Store in a cool, dry place, away from light, refrigerate after opening.

057 - Liquid Yuzu Kosho "Marcy" - 100 g

container : glass bottle - origin : Japan

Ingredients : Vinegar, yuzu kosho (yuzu (20%), green pepper, salt), red pepper, salt. **Description :** The name "Marcy" pays tribute to the Chinese chef Masashi Kio, who participated in creating this delicious liquid yuzu kosho sauce. The vinegar added by the producer brings a lot of freshness and a more pronounced acidity than in an usual yuzu kosho. That is why this liquid version is your new secret ingredient.

Flavor : Spicy, fresh and lemony. **Use :** Unlike traditional yuzu kosho which is thicker, this liquid version is easier to use in a sauce or a mayonnaise for example. Yuzu kosho is great to season broth, pasta, accompany fish and chips or pizza ! This fresh and spicy sauce will also enhance your dressings, stir fried vegetables, fried dishes or grilled meat and fish. **Preservation :** Store in a cool, dry place, away from light.

420 - Kinako - 1 kg

container : plastic sachet - origin : Japan

Ingredients : 100% Soy.

Description : Kinako is a fine powder of roasted soybeans. In Japan kinako is really used in pastry. Traditionally, it is mixed with sugar and sprinkled on many desserts such as warabi mochi. It can be used to flavor preparations. **Flavor :** Kinako taste is close to buckwheat and peanut flavor.

Use : Kinako is used in pastry, in ice cream making for example, or mixed with sugar to sprinkle it on a cake, coat pastries... It can also easily be incorporated with flour to flavor preparations. You can for example use kinako in tiramisu, panna cotta, frangipane, etc. Kinako is also delicious when mixed with milk. **Preservation :** Store in a cool, dry place, away from light. Properly close the zip after use.

302 - Kito yuzu preparation - 220 g

container : glass jar - origin : France

Ingredients : Yuzu (56%), sugar, lemon juice, fruit pectin. **Description :** This yuzu preparation is made exclusively with Kito yuzu imported directly from Japan by Umami. The recipe has been developed by Umami in collaboration with Stephan Perrotte, 2015 Jam World Champion. It fully respects the delicate flavor and unique fragrance of the citrus fruit, being neither too sweet nor too sour. Yuzu peels also add a bit of consistency to this preparation with a soft texture. **Flavor :** Fruity, with the great and typical complexity of yuzu between tangerine and citron. A soft texture with peels. **Use :** Delicious on bread or yogurt, this yuzu preparation can be used as a traditional jam in pastries. Very soft and not too sweet, it will also perfectly accompany duck breast fillets or foie gras. You can use it to season or deglaze poultry for example, as you would do with an orange jam. add a bit of texture to this jam.

Preservation : Store in a cool and dry place, away from light. Refrigerate after opening.

208 - Mikan Ponzu - 360 ml

container : glass bottle - origin : Japan

Ingredients : Soy sauce (contains wheat and soybean), citrus juice (mikan (26%), daidai, yuzu, ogonkan), vinegar, sugar, dried bonito extract, kombu extract, salt, flavour enhancer (E621, E635), flavouring. **Description :** This ponzu is made with 30% of mikan juice. Mikan is a Japanese mandarin sweet and almost not sour. Mikan juice is associated with soy sauce, vinegar and other Japanese citrus juices (yuzu, daidai, ogonkan). It gives a ponzu well balanced and sweet, where the mikan sweetness balances the citrus sourness and the powerful taste of the soy sauce. **Flavor :** Sweet and fresh with delicious fruity notes. **Use :** Very sweet, the mikan ponzu is suitable for children. It is ideal with meat (grilled, Japanese fondue, stew, etc). This ponzu is also perfect to season salads and carpaccio such as jumbo shrimps ones. **Preservation :** Store in a cool and dry place, away from light.

609 - Transparent soy sauce - 100 ml

container : glass bottle - origin : Japan

Ingredients : Soy sauce distillate (soybean, wheat, seawater), salt, vinegar, flavour enhancer (E363, E621, E635, E640), alcohol, sweetener (E950, E955). **Description :** This soy sauce is totally transparent ! It changes the game of seasoning soy sauce. Its is made from distilled soy sauce. With this transparent sauce you can give your preparations the deep and very umami taste, characteristic of koikuchi soy sauce, while keeping the original color of your ingredients. This soy sauce, made from distilled soy sauce, is perfect to season.

Flavor : Deep, long, round and very rich in umami, typical of koikuchi soy sauce.

Use : Perfect to season sea bream carpaccio, salads but also sushi, pastas or egg creams. **Preservation :** Store in a cool and dry place, away from light.

611 - Mild soy sauce «Heisei» - 100 ml

container : glass bottle - origin : Japan

Ingredients : Soybean, wheat, salt, wasanbon sugar, akazake (rice, koji, alcohol, sugar).
Description : This soy sauce is an amakuchi one. In other words, a sweeter soy sauce. It is made from whole soy beans, cultivated in Kyushu, and akazake, a traditional sake from Kumamoto. Its sweet taste also comes from the thin sugar called wasanbon that has been added. **Flavor** : It has a long, umami and sweet flavor, perfect for those who look for a soy sauce closer to the Occidental ones. **Use** : This sweet taste goes particularly well with meat. For example with a steak or a Japanese fondue like a sukiyaki. Of course, it will also perfectly accompany sashimis or roasted scallops.
Preservation : Store in a cool and dry place, away from light.

612 - «Fundodai» Soy sauce set - 2 x 100 ml

container : glass bottles - origin : Japan

Ingredients : Transparent soy sauce : sauce distillate (soybean, wheat, seawater), salt, vinegar, flavour enhancer (E363, E621, E635, E640), alcohol, sweetener (E950, E955) / Mild soy sauce : soybean, wheat, salt, wasanbon sugar, akazake (rice, koji, alcohol, sugar). **Description** : In this set discover two flagship products of our soy sauce producer based in Kumamoto : a transparent soy sauce and a mild soy sauce. These two sauces define the évolution of this producer know-how. At first, he was producing akazake, and evolved into soy sauce in 1869. In this set you have a sweet soy sauce made with akazake, and a transparent state of the art seasoning soy sauce. **Use** : Perfect to offer or to discover the different tastes of Japanese soy sauce. réaliser avec des marinades de poulet ou de thon très gourmandes ou encore des sauces et assaisonnements de salades. **Preservation** : Store in a cool and dry place, away from light.

540 - Rectangular Table Grill - P 235 x L 410 x H 180 + handle

origin : Japan

Description : This rectangular barbecue is made from diatomite, which is really light and rich in silicate. It is molded and baked at 850°C. The barbecue is then reinforced. You can use it outside, on a terrace or on a table inside, with the proper precautions and aerations. The use of binchotan will limit the smoke. Really light, it can be transported easily. You can take it with you for example during camping. **Use** : Remove the shelf, insert the embers directly inside the set up barbecue. If you use binchotan, which can be tricky to start up, you can use our charcoal chimney to get embers easily. Oil the shelf and set it back. When it is hot, you can place the food to be grilled. It is ideal for grilling fresh or marinated meat, fish or vegetables especially cut in smaller bits or skewers. It can be combined with the handle furnished, in order to move it easily.

542 - Square Table Grill «Daimyo» - P 150 x L 150 x H 120

origin : Japan

Description : The Daimyo barbecue is made from diatomite by hand. It is then dried and baked at 700°C before being reinforced. It would be adapted for 2 to 4 persons. You can use it on a table inside, with the proper precautions and aerations. The use of binchotan will limit the smoke.
Use : Remove the shelf, insert the embers directly inside the set up barbecue. If you use binchotan, which can be tricky to start up, you can use our charcoal chimney to get embers easily. Oil the shelf and set it back. When it is hot, you can place the food to be grilled. It is ideal for grilling fresh or marinated meat, fish or vegetables especially cut in smaller bits.

543 - Round Table Grill «Mikawa» - D 210 x H 155

origin : Japan

Description : Mikawa barbecue is made from clay with a potter's wheel. When the clay has hardened, the duct is dug by hand, then it is dried and baked at 950°C before being varnished. It would be adapted for 2 to 4 persons. You can use it outside, on a terrace or on a table inside, with the proper precautions and aerations. The use of binchotan will limit the smoke.
Use : Remove the shelf, insert the embers directly inside the set up barbecue. If you use binchotan, which can be tricky to start up, you can use our charcoal chimney to get embers easily. Oil the shelf and set it back. When it is hot, you can place the food to be grilled. It is ideal for grilling fresh or marinated meat, fish or vegetables especially cut in smaller bits.

544 - Round Table Grill «Genghis» - D 285 x H 170 + grill & bottom grid

origin : Japan

Description : It is ideal for charcoal cooking. With a porous structure made from diatomite, infrareds are reflected and then focused. It will be extremely efficient for cooking quickly, especially if combined with binchotan or another high heat charcoal. Because it is porous, this barbecue is also a little fragile. I would be adapted for 2 to 4 persons. You can use it outside, on a terrace or on a table inside, with the proper precautions and aerations. The use of Binchotan will limit the smoke. **Use** : Remove the shelf, insert the embers directly inside the set up barbecue. If you use binchotan, which can be tricky to start up, you can use our charcoal chimney to get embers easily. Oil the shelf and set it back. When it is hot, you can place the food to be grilled. It is ideal for grilling meat, fish or vegetables especially cut in smaller bits.

New products 3/3

547 - Chimney Starter for Charcoal

origin : Japan

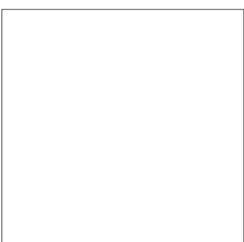

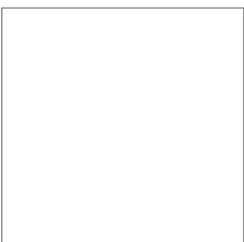

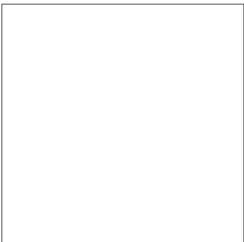

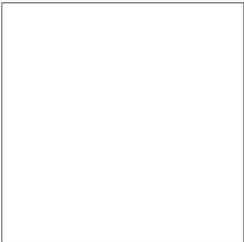

Description : Binchotan is a metal look-alike thick vegetal charcoal very useful for barbecue cooking because it has a strong infra-red radiation that allows a cooked through cooking. Binchotan burns really slowly so it can be used during a very long time but it is also difficult to start up. With this chimney starter, you can easily heat up your charcoal and start cooking without waiting too much. **Use** : Place the binchotan into the chimney then put it on your gaz hotplate or your portable stove for example. The bottom of the chimney must be in contact with the flames. You can also use a welding torch. After 5-10 minutes your binchotan starts burning. Be careful, this chimney does not work with electric or induction hotplate because it needs a direct contact with the flames.

548 - Tong L300

origin : Japan

Description : This stainless steel tong is really strong. It will help you manage the cooking of all your ingredients while using one of our Japanese barbecues.

Yuzu and other Japanese citrus 1/2

	<p>013 - Organic Sudachi Juice - 150 ml container : glass bottle - origin : Japan</p> <p>Ingredient : Organic Sudachi Juice (100%) Description : Sudachi is a green Japanese citrus from Tokushima Prefecture. 	<p>177 - Unpasteurized Shihon Shizuku Soy Sauce - 300 ml container : glass bottle - origin : Japan</p> <p>Ingredients : Defatted soybean, wheat, salt. Description : This high quality soy sauce is unpasteurized. Even the most demanding of connoisseurs will be delighted by the quality of this soy sauce. Flavor : The flavor is deep, long, round and very rich in umami. Use : It can be used in all your preparations often in place of salt, it is preferable to use it as a final touch (for example for sushi, sashimi, or salad dressings) rather than for cooking, considering the high quality of this product. Preservation : Store in a cool, dry place, away from light.</p>
	<p>076 - Organic Premium Soy Sauce - 250 ml container : glass bottle - origin : Japan</p> <p>Ingredients : Organic soybean, organic wheat, salt. Description : This koikuchi soy sauce has been made with organic Japanese soybean and wheat and has been matured 2 years. The Morita's house is producing sauces since 1903 using Japanese ingredients cultivated in the region of Shimane. In this region, winter is long and rude which makes it ideal for the production of qualitative fermented products such as soy sauce, miso or sake. Flavor : It has a koikuchi typical flavor: deep, long, round and very rich in umami. Use : This premium soy sauce is perfect for seasonings. It can be used in all your preparation instead of salt and it is preferable to use it as a final touch rather than for cooking, considering the high quality of this product for example with sushi, sashimi or salad. Preservation : Store in a cool dry place, away from light.</p> 
	<p>173 - Yagisawa less salty Soy Sauce - 500 ml container : plastic bottle - origin : Japan</p> <p>Ingredients : Defatted soybean, wheat, salt, glucose-fructose syrup, soybean, alcohol. Use : This natural and artisanal soy sauce is produced with lesser amount of salt to suit a low-sodium diet. Its balanced flavor will fit well in your everyday cooking as well as in seasoning (stews, roast chicken, salad dressing, vegetables, etc.) Preservation : Store in a cool, dry place, away from light.</p>

**181 - Soy Sauce and Dashi (Japanese broth) Tsuyu - 500 ml**

container : glass bottle - origin : Japan

Ingredients : Soy sauce, «dashi» Japanese broth (dried bonito, dried mackerel, Auxis dried kombu), sugar, mirin, salt.
Description : Tsuyu sauce is the basis of many dishes in Japan commonly used in soba and ramen.
Flavor : This traditional sauce without additives has a slightly sweet, smoky and deep taste rich in umami.
Use : Tsyu sauce will fit well in your soups, grilled fish and tempura.
Preservation : Store in a cool, dry place, away from light.

**182 - Soy Sauce with Kombu & Dashi- 500 ml**

container : plastic bottle - origin : Japan

Ingredients : Soy sauce, rice fermented seasoning, modified starch syrup, dried bonito extract, bonito extract, kombu extract, dried auxis, hydrolysed proteins, vinegar, alcohol, flavour enhancer (E621, E635), acidifier (E270), liquid smoke.
Description : This sauce combines soy sauce and dashi (Japanese broth).
Flavor : It has a nice salty and smoky taste rich in umami.
Use : This sauce can be used to accompany raw fish, flavor stews and in sauces.
Preservation : Store in a cool, dry place, away from light.

**204 - Shiitake soy sauce - 150 ml**

container : glass bottle - origin : Japan

Ingredients : Soy sauce, sugar, salt, mirin, dried shiitake mushrooms, dried bonito, dried bonito extract, kombu, alcohol, flavour enhancer (E621, E635), water.
Description : This artisanal sauce is produced by shiitake mushroom producers in Kyushu. It is a subtle mix of soy sauce with the unique taste of shiitake mushrooms. **Flavor :** Rich and deep shiitake flavor with a slightly sweetened soy sauce.
Use : The shiitake soy sauce goes well with rice, noodles, it can be also used in sauces or with grilled fish.
Preservation : Store in dark, dry and cool place.

**127 - Gluten free Tamari soy sauce - 150 ml**

container : glass bottle - origin : Japan

Ingredients : Soybeans, salt.
Description : The tamari sauce is part of the soy sauce family but it is made from soybeans only, without wheat. This sauce is perfect for gluten free diet. This tamari sauce only contains soybeans and salt so it has a strong soy taste.
Flavor : Salty, rich and deep, drier, with a strong soy taste.
Use : It goes well with sushis and rice of course but you can also use it in your daily food for cooking or seasoning your dishes (stews, roast chicken, salad dressing, crudités, etc.)
Preservation : Store in dark, dry and cool place.

**074 - Gluten free Tamari soy sauce - 1800 ml**

container : plastic bottle - origin : Japan

Ingredients : Soybeans (without GMO), water, salt, alcohol.
Description : The tamari sauce is part of the soy sauce family but it is made from soybeans only, without wheat. Soybeans used are GMO free. This sauce is perfect for gluten free diet.
Flavor : Salty, rich and deep, drier, with a strong soy taste.
Use : It could be used in your daily food for cooking or seasoning (stews, roast chicken, salad dressing, crudités, etc.)
Preservation : Store in dark, dry and cool place.

**187 - White soy sauce - 360 ml**

container : glass bottle - origin : Japan

Ingredients : Wheat, salt, defatted soybean, alcohol, vitamin B1.
Description : White soy sauce was created in Aichi, one of the bigger wheat-producing region also known in Japan for its delicious water. Unlike usual soy sauce, the white one is produced with 90% of wheat and 10% of soybean. This quite big utilisation of wheat gives to the sauce its light color, almost transparent, and its smooth taste. **Flavor :** The flavor is deep, long, round and very rich in umami. **Use :** Thanks to its light color this soy sauce is very useful to season dishes without coloring them. You can put it in your omelets, salty cakes, broth or other preparations with cream and egg but also use it in your salads dressings or with fish and meat. **Preservation :** Store in a cool, dry place, away from light, in the fridge after opening.

**195 - White soy sauce - 1,8 L**

container : glass bottle - origin : Japan

Ingredients : Wheat, salt, defatted soybean, alcohol, vitamin B1.
Description : White soy sauce was created in Aichi, one of the bigger wheat-producing region also known in Japan for its delicious water. Unlike usual soy sauce, the white one is produced with 90% of wheat and 10% of soybean. This quite big utilisation of wheat gives to the sauce its light color, almost transparent, and its smooth taste. **Flavor :** The flavor is deep, long, round and very rich in umami. **Use :** Thanks to its light color this soy sauce is very useful to season dishes without coloring them. Japanese Soy Sauces 2/2

	<p>206 - Concentrated soy sauce with abalone livers - 100 ml</p> <p>Ingredients : Fermented abalone (abalone, soybean, wheat), starch, alcohol. Description : This soy sauce is produced in the region of Iwate. It is quite a rare product because it is made with fermented abalone livers, a very popular ingredient in the local gastronomy with an inimitable taste. The abalone is a shellfish usually difficult to work with because it needs to be tenderized. Flavor : Strong and iodine, typical of the fresh abalone. Use : You can use it easily in sauces and stocks, with foie gras or veal or directly with crustacean, fishes and other seafood Preservation : Store in a cool dry place, away from light.</p>	<p>container : glass bottle - origin : Japan</p>
---	--	--

	<p>592 - Soy sauce with koji - 340 ml</p> <p>Ingredient : Soy sauce (contains soybeans and wheat), koji. Description : This soy sauce is made by a producer specialized in koji. The soy sauce mixed with koji and aged in a 100 years old fashion. It becomes a really gourmet, creamy, sweet soy sauce. This soy sauce is kosher. Flavor : A flavor less salty, sweet, very rich in umami. Use : It goes very well with sashimi and sushi but it will also be delicious simply poured on tofu or rice. Thanks to its creamy texture and its sweet taste you can cook really gourmet tuna or chicken marinades, sauces and salads dressings. Preservation : Store in a cool, dark and dry place.</p>	<p>container : glass bottle - origin : Japan</p>

Japanese Ponzu Sauces

085 - Sennari Yuzu and Sudachi Ponzu Sauce - 360 ml

container : glass bottle - origin : Japan

Ingredients : Soy sauce (contains soy and wheat), organic yuzu, sudachi, pure rice vinegar (Akitakomachi organic rice), mirin, salt, kombu, dried bonito (produced in Makurazaki, 4.8%).

Use : The ponzu is a popular and widespread sauce in Japan. It combines soy sauce, dashi and a Japanese citrus. It also often includes a little bit of vinegar or mirin. Its taste is very much appreciated; it is both fresh and deep and rich in umami. The ponzu is very easy to use because it goes well with European cuisine. It can be used as salad dressing, accompany scallops, white fish, fatty meats, avocados, asparagus or artichokes...

Preservation : Store in a cool, dry place, away from light, refrigerate after opening.

178 - Shibanuma Yuzu Ponzu Sauce - 300 ml

container : glass bottle - origin : Japan

Ingredients : Soy sauce, glucose-fructose syrup, vinegar, yuzu juice, dried bonito extract, yeast extract, lemon juice, flavour enhancer (E621, E635) (certain ingredients contain soybean, wheat, and mackerel).

Use : The ponzu is a popular and widespread sauce in Japan. It combines soy sauce, dashi and a Japanese citrus. It also often includes a little bit of vinegar or mirin. Its taste is very much appreciated; it is both fresh and deep and rich in umami. The ponzu is very easy to use because it goes well with European cuisine. It can be used as salad dressing, accompany scallops, white fish, fatty meats, avocados, asparagus or artichokes...

Preservation : Store in a cool, dry place, away from light, refrigerate after opening.

183 - Shibanuma Yuzu Ponzu Sauce - 1,8 L

container : glass bottle - origin : Japan

Ingredients : Soy sauce, glucose-fructose syrup, vinegar, yuzu juice, dried bonito extract, yeast extract, lemon juice, flavour enhancer (E621, E635) (certain ingredients contain soybean, wheat, and mackerel).

Use : The ponzu is a popular and widespread sauce in Japan. It combines soy sauce, dashi and a Japanese citrus. It also often includes a little bit of vinegar or mirin. Its taste is very much appreciated; it is both fresh and deep and rich in umami. The ponzu is very easy to use because it goes well with European cuisine. It can be used as salad dressing, accompany scallops, white fish, fatty meats, avocados, asparagus or artichokes...

Preservation : Store in a cool, dry place, away from light, refrigerate after opening.

022 - «Michikono» Ponzu Sauce with 3 citrus - 150 ml

container : glass bottle - origin : Japan

Ingredients : Organic dark soy sauce (organic soy beans, organic wheat), organic vinegar, organic citrus juice (organic yuzu juice, organic sudachi juice, organic yuko juice), organic sugar, organic mirin.

Use : The ponzu is a popular and widespread sauce in Japan. It combines soy sauce, dashi and a Japanese citrus. It also often includes a little bit of vinegar or mirin. Its taste is very much appreciated; it is both fresh and deep and rich in umami. The ponzu is very easy to use because it goes well with European cuisine. It can be used as salad dressing, accompany scallops, white fish, fatty meats, avocados, asparagus or artichokes...

Preservation : Store in a cool, dry place, away from light, refrigerate after opening.

075 - Tomato & Yuzu Ponzu Sauce - 200 ml

container : glass bottle - origin : Japan

Ingredients : White soy sauce (wheat, salt, soy, alcohol), tomato, mirin, yuzu juice, sake, kombu, salt.

Use : This artisanal and natural sauce cleverly combines Ponzu and tomato. This product will perfectly go with your steamed fish, but also with your vegetable soups or gazpachos.

Preservation : Store in a cool, dry place, away from light, refrigerate after opening.

207 - Shio ponzu - White Ponzu - 360 ml

container : glass bottle - origin : Japan

Ingredients : Yuzu juice, sudachi juice, rice vinegar, sugar, salt, kombu dashi, mirin, bonito dachi, yeast extract. **Description :** The ponzu is a popular and widespread sauce in Japan. Its taste is very much appreciated; it is both fresh and deep and rich in umami. Unlike regular ponzu sauces that combines soy sauce, dashi and a Japanese citrus, white ponzu is made with an organic rice vinegar base. It does not contain soy sauce, that is why it has a slight color. There is also bonito and kombu dashi broth, organic yuzu juice and sudachi juice from Tokushima. It is additive and preservative free and have is well balanced between acidity and umami. **Use :** White ponzu can be used as a regular ponzu with the advantage that it will not color your preparations. It can be used as salad dressing, accompany scallops, white fish, fatty meats, avocados, asparagus or artichokes... It will also give a deeper taste to your broths. The ponzu is very easy to use because it goes well with European cuisine. **Preservation :** Store in a cool, dry place, away from light, in the fridge after opening.

162 - Organic yuzu ponzu sauce - 175 ml

container : glass bottle - **origin :** Japan

Ingredients : Organic soy sauce, organic rice vinegar, organic yuzu juice, organic sugar, salt, bonito extract, kombu, water.

Description : The ponzu is a popular and widespread sauce in Japan. It combines soy sauce, dashi and a Japanese citrus. It also often includes a little bit of vinegar or mirin. Its taste is very much appreciated; it is both fresh and deep and rich in umami. This organic yuzu ponzu is produced with organic yuzu juice from Shikoku island, organic rice vinegar from de same producer and organic soy sauce made with soy beans and wheat cultivated in Japan.

Use : The ponzu is very easy to use because it goes well with European cuisine. It can be used as salad dressing, accompany scallops, white fish, fatty meats, avocados, asparagus or artichokes... **Flavor :** Un goût rond aux puissants arômes de yuzu. **Preservation :** Store in a cool, dry place, away from light.

Japanese vinegars 1/2

	<p>084 - Pure Organic Rice Vinegar - 360 ml container : glass bottle - origin : Japan</p> <p>Ingredient : Organic rice. Description : Rice vinegar is the most common vinegar in Japan and is used in many dishes. It is made with pure mountain water. Use : This artisanal and organic product will allow you to marinate the mackerel. It will replace the cider vinegar for daily use. Preservation : Store in a cool, dry place, away from light.</p> 
	<p>087 - Vinegar for Sunomono Seasoning - 360 ml container : glass bottle - origin : Japan</p> <p>Ingredients : Pure rice vinegar (Akitakomachi organic rice), isomalt oligosaccharide, sugar, salt, mirin, kombu, trehalose. Description : Sunomono means «pickled dish», which usually consists of a seaweed salad with cucumber and mackerel. This artisanal rice vinegar is mixed with kombu and is sweetened to accompany sunomonos. Use : This vinegar is perfect for your salad dressings; it can very well replace white balsamic vinegar. Preservation : Store in a cool, dry place, away from light.</p>
	<p>088 - Pure brown rice vinegar - 360 ml container : glass bottle - origin : Japan</p> <p>Ingredient : Rice. Use : This artisanal and natural product of amber color has a sour and slightly toasted taste. It is made with pure mountain water. This vinegar is perfect for your salad dressings; it can very well replace the finest balsamic vinegar. Preservation : Store in a cool, dry place, away from light.</p>
	<p>130 - Pure brown rice vinegar - 1,8 L container : plastic bottle - origin : Japan</p> <p>Ingredient : Rice. Use : This artisanal and natural product of amber color has a sour and slightly toasted taste. It is made with pure mountain water. This vinegar is perfect for your salad dressings; it can very well replace the finest balsamic vinegar. Preservation : Store in a cool, dry place, away from light.</p>
	<p>099 - Rice Vinegar for Sushi - 360 ml container : glass bottle - origin : Japan</p> <p>Ingredients : Pure rice vinegar (Akitakomachi organic rice), sugar, salt, mirin, kombu. Use : This artisanal vinegar is designed to flavor rice that accompanies sushi. It can also be used for salad seasoning or to make pickles. Flavor : The flavor is sweet, slightly acidic and rich in umami because it contains Kombu. Preservation : Store in a cool, dry place, away from light.</p>
	<p>131 - Rice Vinegar for sushi - 1,8 L conainer : plastic bottle - origin : Japan</p> <p>Ingredients : Rice vinegar, sugar, salt, flavour enhancer (E363, E621, E635), sweetener (E960). Use : This artisanal vinegar is designed to flavor rice that accompanies sushi. It can also be used for salad seasoning or to make pickles. Flavor : The flavor is sweet, slightly acidic and rich in umami because it contains Kombu. Preservation : Store in a cool, dry place, away from light.</p>

**086 - Mirin - 360 ml**

container : glass bottle - origin : Japan

Ingredients : Rice (Akitakomachi organic rice), koji, sweetener, salt.

Description : Mirin is one of the bases of Japanese cuisine and is one of the main ingredients of many sauces and dishes. "Hon mirin" means a mirin, which is done in traditional and natural way. **Flavor :** The taste is very mild, subtly fruity and long.

Use : It is used to bring the softness and roundness to sauces and break the acidity and bitterness of a dish.

Preservation : Store in a cool, dry place, away from light.

**599 - Hon mirin - 600 ml**

container : plastic bottle - origin : Japan - 14°

Ingredients : Rice, koji, alcohol, shochu, sugar. **Description :** Mirin is one type of sake, soft and sweet that was originally drunk during celebrations. Nowadays, it is one of the basics of Japanese cuisine and it is one of the main ingredients of many sauces and dishes. This mirin is a Hon mirin which means a mirin done in a traditional and natural way. It has been made with Japanese rice that was fermented 6 months at low temperature. Compared to others, this mirin has a higher umami content. **Flavor :** In addition of the sweet and roasted taste of shochu it has a very mild and umami flavor with a long finish. **Use :** It is used to bring softness and roundness to sauces and break the acidity and bitterness of a dish. Smear your fishes with it before cooking them in the oven or deglaze your meats with it. **Preservation :** Store in a cool dry place, away from light.

**598 - Hon Mirin - 1,8 L**

container : plastic bottle - origin : Japan - 14°

Ingredients : Rice, koji, alcohol, shochu, sugar. **Description :** Mirin is one type of sake, soft and sweet that was originally drunk during celebrations. Nowadays, it is one of the basics of Japanese cuisine and it is one of the main ingredients of many sauces and dishes. This mirin is a Hon mirin which means a mirin done in a traditional and natural way. It has been made with Japanese rice that was fermented 6 months at low temperature. Compared to others, this mirin has a higher umami content. **Flavor :** In addition of the sweet and roasted taste of shochu it has a very mild and umami flavor with a long finish. **Use :** It is used to bring softness and roundness to sauces and break the acidity and bitterness of a dish. Smear your fishes with it before cooking them in the oven or deglaze your meats with it. **Preservation :** Store in a cool dry place, away from light.

**100 - Ume Vinegar - 720 ml**

container : glass bottle - origin : Japan

Ingredients : Pure rice vinegar, apple vinegar, ume vinegar (Japanese plum), oligosaccharide, trehalose, honey, extracts of ume (Japanese plum).

Description : In Japan, drinking vinegars are really popular because of their virtues. Those vinegars have been sweetened to be mixed with water and can replace syrups, which are often too sweet. Ume is a type of apricot with a plum flavor.

Flavor : The ume vinegar has a very fruity flavor, something between apricot and apple.

Preservation : Store in a cool, dark and dry place. Refrigerate after opening.

**101 - Sanbaizu, bonito vinegar - 180 ml**

container : glass bottle - origin : Japan

Ingredients: Rice vinegar, sugar, soy sauce, salt, mirin, kombu extract (Rishiri), bonito extract (Makurazaki) (certain ingredients contain soybean and wheat).

Use: Sanbaizu vinegar is a mix of three specific ingredients: rice vinegar, mirin and soy sauce. Bonito dashi has also been added to this one. Use it as seasoning for a salad or to go with seafood.

Preservation: Store in a cool, dry place, away from light. Keep refrigerated after opening.

**097 - Organic pure apple vinegar - 175 ml**

container : glass bottle - origin : Japan

Ingredients: 100% organic apples.

Use: This vinegar is an aged vinegar made from organic apples (100%) from Aomori Prefecture, and from natural water from the northern part of Hiroshima Prefecture. This organic handcrafted vinegar will replace cider vinegar for daily use.

Preservation: Store in a cool, dry place, away from light.

**079 - Sakura Vinegar - 300 ml**

container : glass bottle - origin : Japan

Ingredients : Rice vinegar, purple sweet popato vinegar, isomaltooligosaccharide, sakura leaves, sakura flower.

Description : This is a new product of our producer of Japanese vinegars Sennari. Shizuoka leaves macerated in a vinegar produced with rice from Hiroshima, giving it floral fresh notes.

Flavor : Strong and floral with a great balance between the acidity and the sweetness of the rice vinegar.

Use : This vinegar is perfect to give flavour to your dressings and mayonnaises or to deglaze poultry.

Preservation : Store in a cool dry place, away from light.

Japanese vinegars 2/2

072 - Pure kaki vinegar - 200 ml

container : glass bottle - origin : Japan

Ingredients : Kaki, water.

Description : It is a vinegar made with kaki from the Fukuoka prefecture exclusively. The whole fruits fermented more than one year in order to develop their umami. **Flavor :** This vinegar is really sweet, not sour and very rich in umami. **Use :** You can use it as a drinking vinegar: water it down 5 to 10 times with cold water and add a little bit of honey. Like it is very rich in umami it will enhance the taste of your dishes such as stews, tartares and sushis. It will also be delicious in dressings for salads, cocktails and pastries.

Preservation : Store in a cool dry place, away from light.

073 - Kaki vinegar for sushi - 200 ml

container : glass bottle - origin : Japan

Ingredients : Kaki vinegar, sugar, mirin, salt, kombu, water.

Description : To create this sushi vinegar, Hokkaido mirin and kombu have been added to a base of kaki vinegar. It gives an additive free sushi vinegar sweet, fruity and very rich in umami. **Flavor :** Very sweet and rich in umami, not sour. **Use :** This vinegar is of course perfect to season your sushi rice but it is also perfect for your pickles and marinated vegetables. You can use it as it is on your fishes and salads to bring them a slight fruity taste. Mix it with a little bit of oil, some spices and you have a great marinade.

Preservation : Store in a cool dry place, away from light.

Japanese Sauces and Seasonings

	<p>092 - Organic Vinegar Sauce with green Shiso - 175 ml container : glass bottle - origin : Japan</p> <p>Ingredients : Organic rice vinegar, organic soy sauce, organic sugar, salt, organic green shiso, organic lemon juice, ume (Japanese plum), bonito extract (1.5%), organic ginger, spices, agar, kombu, (some ingredients include wheat and soybeans).</p> <p>Use : This artisanal and natural sauce subtly mixes the vinegar, soy sauce and shiso (Japanese basil). This fat-free sauce will replace your usual dressing and will go very well with your fish and rice.</p> <p>Preservation : Store in a cool, dry place, away from light, refrigerate after opening.</p> 
	<p>090 - Organic Vinegar Sauce with Sesame and Yuzu - 175 ml container : glass bottle - origin : Japan</p> <p>Ingredients : Organic rice vinegar, organic sugar, organic sesame paste, grated sesame, salt, organic yuzu juice, yeast extract, agar, spices, organic oil, (some ingredients include wheat and soybeans).</p> <p>Use : This sauce combines artisanal and organic sesame paste with yuzu and vinegar. Sesame is a very popular product in Japan for its taste and health benefits. This sauce can be used in salad dressing and it also goes very well with thinly sliced meat.</p> <p>Preservation : Store in a cool, dry place, away from light, refrigerate after opening.</p> 
	<p>093 - Organic Tonkatsu Sauce - 175 ml container : glass bottle - origin : Japan</p> <p>Ingredients : Vegetables, fruits (organic tomato, organic onion, organic carrot), organic vinegar (organic rice vinegar, organic apple vinegar), organic sugar, organic soy sauce, salt, spices, malt extract, (some ingredients contain soybeans and wheat).</p> <p>Use : This artisanal and organic sauce is a kind of « Japanese ketchup ». In Japan, it accompanies a widespread dish called "tonkatsu" (breaded pork cutlets). Its texture is creamy and its taste is between ketchup and Worcestershire sauce. It goes perfectly well with grilled and breaded meats but also fries.</p> <p>Preservation : Store in a cool, dry place, away from light, refrigerate after opening.</p> 
	<p>186 - Yakiniku sauce for grilled meat - 360 g container : glass bottle - origin : Japan</p> <p>Ingredients : Soy sauce, mirin, sugar, onion, vinegar, apple, garlic, chicken extract, salt, Japanese pepper sansho, white pepper, black pepper, red chili pepper, flavour enhancer (E621), thickener (E415)</p> <p>Use : The term "yakiniku" in Japanese means: grilled meat. You can marinate meat or vegetables in yakiniku sauce before cooking. You can use this sauce for barbecue or griddle.</p> <p>Preservation : Store in a cool, dry place, away from light, refrigerate after opening.</p>
	<p>096 - Sesame Wasabi Dressing - 130 ml container : plastic bottle - origin : Japan</p> <p>Ingredients : Organic rice vinegar, white sesame paste, mirin, sugar, soy sauce, wasabi, vegetable oil (sunflower oil), grated sesame, salt, starch, spices, yeast extract, antioxidant (vitamin E), spices extract (some ingredients contain soy, wheat).</p> <p>Use : This artisanal seasoning mixes wasabi and sesame. It will bring a spicy touch to salads, meat and fish.</p> <p>Preservation : Store in a cool, dry place, away from light, refrigerate after opening.</p>
	<p>094 - Oyster Sauce - 130 ml container : plastic bottle - origin : Japan</p> <p>Ingredients : Organic rice vinegar, vegetable oil (sunflower oil), soy sauce, sugar, oyster extract (7.78%), mirin, salt, spices, garlic, agar, (some ingredients contain soy, wheat).</p> <p>Use : The oyster taste in sauces and dishes is much appreciated in Asia and in Japan. Its taste is iodized, delicate and rich in umami. You can use it in salad dressing but also with scallops, seafood or rice.</p> <p>Preservation : Store in a cool, dry place, away from light, refrigerate after opening.</p>

**077 - Concentrated oyster sauce - 300 g****container :** glass bottle - **origin :** Japan

Ingredients : Glucose syrup (corn, potato, sweet potato), oyster, soy sauce (wheat, soybean, seawater), salt, sugar, alcohol, thickener (modified starch), water. **Description :** To make this sauce, raw oysters have been ground. The Arima sea where they are cultivated is really rich in plankton and produces oysters with a really thick flesh. There is no artificial food coloring or seasoning and no oyster extract. The delicious oyster taste of this sauce comes from the natural oysters ground to make it. **Flavor :** Really fresh and iodized taste that reminds of natural oyster. **Use :** This sauce will perfectly match with sauces and dressings. You can also use it in your soups, broths or stews to give them a subtil and characteristic taste of the sea. **Preservation :** Store in a cool dry place, away from light.

**184 - Gluten free teriyaki sauce - 1,8 L****container :** plastic bottle - **origin :** Japan

Ingredients : Tamari soy sauce (soybean, salt, alcohol), hight fructose corn syrup, corn syrup, water, rice fermented seasoning, sugar soybean paste, ginger, thickening agent (E1442). **Description :** In Japan the word «teriyaki» represents a dish with peking fish or meat. The teriyaki sauce is traditionally made with soy sauce in which sugar, mirin, ginger or even garlic are added. This teriyaki sauce has the particularity to be gluten free and does not contain any added monosodium glutamate or animal extract. **Flavor:** Creamy, slightly sweet, very rich in umami, with ginger notes. **Use :** Teriyaki sauce is perfect to marinate fish and meat before cooking them on the grill or barbecue. You can for example put some on salmon or use it to season a wok of vegetables. It will also be delicious with duck and chicken. **Preservation :** Store in a cool, dry place, away from light, in the fridge after opening.

Dashi

172 - Concentrated liquid Yagisawa Dashi - 360 ml

container : glass bottle - origin : Japan

Ingredients : Fermented wheat seasoning, dried bonito dashi, mirin, salt, sugar, rice vinegar, dried bonito, grilled flying fish, dried matured bonito, kombu.
Description : Dashi is a Japanese broth, which is the essence of umami taste in Japanese food. It is extracted from kombu and dried bonito. This artisanal and natural concentrated liquid dashi is a base for those wishing to explore the Japanese tastes.
Use : The recommended dilution 1/17. It is ideal for making soups, clear broths, sauces, and also for cooking rice.
Preservation : Store in a cool, dry place, away from light, refrigerate after opening.

450 - Bonito flakes - Katsuobushi - 40 g

container : plastic sachet - origin : Spain

Ingredients : Skipjack tuna (100%).
Description : The katsuobushi consists of dried, fermented and smoked bonito flakes. It is one of the main ingredients in preparation of dashi (Japanese broth) **Flavor :** Rich in natural inosinate, it develops a rich umami flavor. **Use :** Put to heat 500 ml of water and add 20 gr of bonito flakes just before the water starts boiling, cook for 1 minute. Remove from heat, leave for 2-3 minutes or until the bonito flakes sink to the bottom, then strain out the bonito flakes. You can reuse the bonito flakes within 24 hours for other preparations.
Preservation : Store in a cool, dark and dry place. Refrigerate after opening and consume within 7 days.

451 - Bonito flakes - Katsuobushi - 500 g

container : plastic sachet - origin : Spain

Ingredients : Skipjack tuna (100%).
Description : The katsuobushi consists of dried, fermented and smoked bonito flakes. It is one of the main ingredients in preparation of dashi (Japanese broth) **Flavor :** Rich in natural inosinate, it develops a rich umami flavor. **Use :** Put to heat 500 ml of water and add 20 gr of bonito flakes just before the water starts boiling, cook for 1 minute. Remove from heat, leave for 2-3 minutes or until the bonito flakes sink to the bottom, then strain out the bonito flakes. You can reuse the bonito flakes within 24 hours for other preparations.
Preservation : Store in a cool, dark and dry place. Refrigerate after opening and consume within 7 days.

595 - Katsuobushi premium bonito flakes - 500 g

container : plastic sachet - origin : Spain

Ingredients : Skipjack tuna (Katsuwonus pelamis) 100%.
Description : The katsuobushi consists of dried, fermented and smoked bonito flakes. It is one of the main ingredients in preparation of dashi (Japanese broth). This premium katsuobushi flakes do not contain the darkest part of the fish fillet, along the dorsal fishbone. This part is thick and blood-red. It is the origin of the stronger and sometimes earthy taste of the fish and it is also the part that contains more toxin. **Flavor :** Rich in natural inosinate, it develops a rich umami flavor, less ferrous than classic katsuobushi. **Use :** Put to heat 500 ml of water and add 20 gr of bonito flakes just before the water starts boiling, cook for 1 minute. Remove from heat, leave for 2-3 minutes or until the bonito flakes sink to the bottom, then strain out the bonito flakes. You can reuse the bonito flakes within 24 hours for other preparations. **Preservation :** Store in a cool, dark and dry place.

222 - Black vinegar jelly with dashi - 140 g

container : glass jar - origin : Japan

Ingredients : Black rice vinegar, sugar, soy sauce, mirin, dried bonito, kombu, agar agar (contains soy and wheat).
Description : This exceptional dashi jelly is the combination of aged outdoor black rice vinegar and dashi -traditional broth extracted from Kombu and dried bonito produced in Makurazaki, a city renowned for the quality of its bonito.
Flavor : Rich in natural glutamate, it has a unique deep umami taste, long and round on the palate.
Use : Black vinegar jelly can be used in sauce making, in soups... It perfectly accompanies a grilled mackerel and a poached egg, rice or white meat. **Preservation :** Store in a cool, dark and dry place. Refrigerate after opening.

223 - Superior Dashi Makurazaki - (10 bags x 8 g)

container : doypack - origin : Japan

Ingredient : Matured dried bonito, dried sardine, dried exocet, horse mackerel, kombu, sugar, salt, yeast extract, starch hydrolyzate, bonito extract, soy sauce powder, dried sardine extract, protein hydrolyzate, sugar, fermented seasoning, rapeseed oil, cyclodextrin, (some ingredients contain wheat, soy). **Description :** Dashi is a Japanese broth, it is the essence of umami taste in Japanese food. This excellent quality dashi, doesn't contain mushroom and has a great bonito taste. It is produced in the town of Makurazaki, well-known for its bonito. **Flavor :** Rich in natural glutamate, it has a deep umami taste, long and round on the palate. **Use :** Infuse a sachet of dashi in 0.5L to 1L of hot water for 10 min. Dashi is used in many Japanese dishes: miso soup, ramen soup, donburi, rice, chawanmushi (egg pudding) and in stews such as Nikujaga etc. It can also be used for vegetable soups and risottos.
Preservation : Store in a cool, dark and dry place. Refrigerate after opening.

226 - Vegetarian dashi - 40 g (8 g x 5)

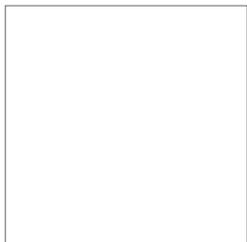

container : aluminium sachet - **origin :** Japan

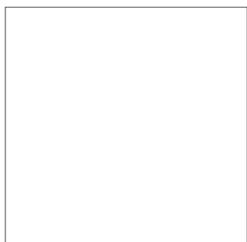

Ingredients : Hydrolysate, onion powder, salt, yeast extract, cabbage powder, soy sauce powder, carrot powder, daikon radish powder, garlic powder, leek powder, burdock root powder, celery powder, rapeseed oil. **Description :** Dashi is a Japanese broth, which is the essence of umami taste in Japanese food. Traditionally, it is extracted from kombu and dried bonito but we selected here a vegetarian dashi made with 8 vegetables from Aomori prefecture (North of Japan). It has no added glutamate. **Flavor :** It has a strong taste of vegetables but also a nice umami taste. **Use :** Brew 5 min in hot water or 3h in cold water. You can use it as a traditional dashi to make soups, clear broths, sauces but also cook your vegetables in it or even use it to sprinkle on your pastas and salads. **Preservation :** Store in a cool dry place, away from light.

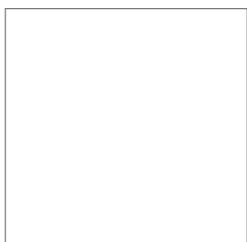

Miso 1/2

	<p>111 - Soy & Barley Miso (with no additives) - 500 g container : plastic box - origin : Japan</p> <p>Ingredients : Soybeans, barley, rice, salt. Description : Miso is a fermented salty bean paste, which constitutes the bases of Japanese cuisine. This product is a mixture of soybeans, barley and rice. It has a deep, salty and rich in umami flavor. Use : It can be used to prepare miso soup, marinate meat and vegetables. It can also be added to mashed potatoes or vegetable soups. Preservation : Store in a cool, dry place, away from light, refrigerate after opening.</p>
	<p>112 - Rice Miso (with no additives) - 500 g container : plastic box - origin : Japan</p> <p>Ingredients : Rice, soybeans, salt. Description : Miso is a fermented salty bean paste, which constitutes the bases of Japanese cuisine. This product is a mixture of soybeans and rice. It has a deep, salty and rich in umami flavor. Use : It can be used to prepare miso soup, marinate meat and vegetables. It can also be added to mashed potatoes or vegetable soups. Preservation : Store in a cool, dry place, away from light, refrigerate after opening.</p>
	<p>110 - White miso, shiro miso - 500 g container : plastic box - origin : Japan</p> <p>Ingredients : Rice, soybeans (non GMO), salt, glucose syrup, alcohol. Description : White miso has been fermented for a shorter time and contains less salt than other misos. Its color can get darker with time, but this is a natural process and it doesn't have any effect on the taste. Flavor : Sweet, slightly salty and rich in umami taste. Use : It can be used in sauces, marinades, in mashed potatoes instead of milk or in soups instead of cream. Preservation : Store in a cool, dark and dry place. Refrigerate after opening.</p>
	<p>120 - White miso, shiro miso - 5 Kg container : plastic sachet - origin : Japan</p> <p>Ingredients : Rice, soybeans (non GMO), salt, glucose syrup, alcohol. Description : White miso has been fermented for a shorter time and contains less salt than other misos. Its color can get darker with time, but this is a natural process and it doesn't have any effect on the taste. Flavor : Sweet, slightly salty and rich in umami taste. Use : It can be used in sauces, marinades, in mashed potatoes instead of milk or in soups instead of cream. Preservation : Store in a cool, dark and dry place. Refrigerate after opening.</p>
	<p>119 - Red miso - 500 g container : plastic box - origin : Japan</p> <p>Ingredients : Soybeans, barley, salt. Description : Miso is a fermented salty bean paste, which constitutes the bases of Japanese cuisine. The red miso went through a longer fermentation process and is made out of soybeans and barley. Flavor : The red miso has a more pronounced taste than the brown and white miso. It has a deep, salty and rich in umami flavor. Preservation : Store in a cool, dry place, away from light, refrigerate after opening.</p>
	<p>114 - Miso with Yuzu - 160 g container : plastic tube - origin : Japan</p> <p>Ingredients : Barley Miso, Sugar, Yuzu, Chirimen (Dried Small Sardines) (2.08%), Soy Sauce, Sesame, Alcohol, Flavour Enhancer (E262, E325, E331, E621, E631, E640), Sweetener (Liquorice), Vitamin B2 (contains Wheat). This diluted miso has a dark red color and a tangy garlic flavor. It can be used as mustard or to marinade meat or to make sauces and mayonnaise.**Preservation :** Store in a cool, dry place, away from light, refrigerate after opening.**703 - Hatcho Miso - 400 g****container :** doypack sachet - **origin :** Japan**Ingredients :** Soy, salt, roasted barley flour, water.**Description :** Miso is a fermented salty bean paste which constitutes one of the bases of Japanese cuisine. This Miso originally from Hatcho village is made using a traditional method, unchanged since 1645. Soy beans are selected before being refined for a minimum of 24 months in wooden barrels containing up to 6 tons of soybean koji. Each barrel is held under pressure by several tons of stones. **Flavor :** Acidulous, slightly bitter. Cocoa notes. **Use :** Hatcho miso can be used for the preparation of traditional miso soup, as a seasoning for meat and fish dishes, in creamy sauces with butter or cheese. It also marries surprisingly well chocolate and can be used in pastry, for brownies, madeleines, financiers or cakes to spit for example. **Preservation :** Store in a cool, dry place, away from light. After opening, keep refrigerate.**702 - Hatcho Miso Powder - 200 g****container :** doypack sachet - **origin :** Japan**Ingredients :** Soy, salt, roasted barley flour.**Description :** Hatcho Miso powder is dehydrated Hatcho Miso paste. Miso is a fermented salty bean paste which constitutes one of the bases of Japanese cuisine. This Miso originally from Hatcho village is made using a traditional method, unchanged since 1645. Soy beans are selected before being refined for a minimum of 24 months in wooden barrels containing up to 6 tons of soybean koji. Each barrel is held under pressure by several tons of stones.**Flavor :** Acidulous, slightly bitter. Cocoa notes.**Use :** Hatcho Miso powder can be used as a seasoning on meat and fish dishes. It also goes very well with chocolate and can be sprinkled on desserts.**Preservation :** Store in a cool, dry place, away from light.**118 - Instant miso soup for ochazuke - 5 x 10 g****container :** plastic and paper sachets - **origin :** Japan**Ingredients :** Miso powder (seasoned miso, flavour enhancer (bonito)), sesame, rice, seasoned wakame (salt, wakame, sugar), dried bonito, nori, sugar, salt, soy sauce, hydrolysed proteins, mirin, flavour enhancer (E331, E621, E635, E640), alcohol, polysaccharide thickener, sweetener (licorice), vitamin B2 (some ingredients contain barley, chicken, soybean and wheat).**Description:** These bags allow to make many different Japanese dishes: you can use it as furikake, ie . sprinkling the bag directly over rice or pasta. You can also drink it with 150 ml of hot water to make instant soup or in ochazuke .**Preservation :** Store in a cool, dark and dry place. Use as quickly after opening.

Miso 2/2

	<p>124 - Instant miso soup - 9 g container : sachet - origin : Japan</p> <p>Ingredients : Dried miso (miso mix, rapeseed oil), bonito and kombu dashi (dried bonito powder, salt, sugar, yeast extract, kombu powder), dry fried tofu (fried tofu, glucose syrup), dried wakame, dried tofu, dried leek, flavor enhancer (E262, E325, E331, E621, E635, E640), polysaccharide thickener (E412, E415), sweetener (liquorice), torehalose, coagulating agent, antioxidant (Vitamin E), (some ingredients contain soybean, barley, chicken and sardine). Description : Miso soup is a classic of Japanese cuisine, it is ready to use and easy to prepare. Prepared by our producer, all the ingredients are included: tofu, algae, bonito... Use : Add a sachet of miso soup (9g) to 160ml of boiling water and mix well, miso soup is ready. Its flavor is rich in Umami. Preservation : Store in a cool, dry place, away from light. Refrigerate after opening.</p>
--	---

	<p>704 - Organic Country-Style Miso - 300 g container: box - origin : Japan</p> <p>Ingredients : Organic rice, organic soybean, salt.</p> <p>Description : This organic miso is made from organic soybean and rice from Ishikawa. It has the particularity to contain a great quantity of koji. After 9 months of fermentation, the miso gains a beautiful dark gold color and a texture where rice grains remain. Flavor : A very umami flavor, an intense taste slightly sweet. Use : This miso is delicious in meat marinades such as porc, but also to make sauces with vegetables like eggplants and pepper. Of course, you can use it in the well-known miso soup but it will have a more interesting texture with the miso rice grains that will remain.</p> <p>Preservation : Store in a cool, dark and dry place, in the fridge after opening.</p>
--	---

	<p>594 - Creamy miso with koji - 500 g container : box - origin : Japan</p> <p>Ingredient : Rice, soybeans, salt, alcohol.</p> <p>Description : It is a white miso, that has been fermented for a shorter time and contains less salt. Its particularity is that it contains amazake, a sweet drink made from rice fermentation that brings a lot of sweetness and body to the miso. Amazake is made with koji. Its enzymes transform rice starch in sugar. Its color gets darker with time, but this is a natural process and it doesn't have any effect on the taste. Flavor : Sweet, slightly salty and rich in umami taste.</p> <p>Use : It is perfect for marinades. For example you can coat salmon with it or marinate porc ribs in it before cooking them on BBQ. You can also use it in sauces, in mashed potatoes instead of milk or in soups instead of cream. Preservation : Store in a cool, dark and dry place, in the fridge after opening.</p>

577 - Roasted black sesame oil - 160 g

container : glass bottle - **origin :** Japan

Ingredient : Black sesame.

Description : Rich in fibre, proteins and vitamins, this sesame oil is made with black sesame only. It is produced by a traditional method without heating and without any additive or chemical product. It is very concentrated so only a few drops are enough to add sesame taste to your dishes. The taste of the black sesame oil is stronger than the white sesame oil one. **Flavor :** Not so bitter, profound, with peanuts notes.

Use : It can be used for frying, as a seaweed salad seasoning, in desserts (cakes, creams). It would be perfect to add flavor at the end of the cooking.

Preservaion : Store in a cool and dry place, away from direct light.

578 - Roasted white sesame oil - 160 g

container : glass bottle - **origin :** Japan

Ingredient : White sesame.

Description : Rich in fibre, proteins and vitamins, this sesame oil is made with black sesame only. It is produced by a traditional method without heating and without any additive or chemical product. It is very concentrated so only a few drops are enough to add sesame taste to your dishes.

Flavor : Not so bitter, profound, with peanuts notes.

Use : It can be used for frying, as a seaweed salad seasoning, in desserts (cakes, creams). It would be perfect to add flavor at the end of the cooking of your preparations. **Preservaion :** Store in a cool and dry place, away from direct light.

572 - Sesame tofu powder - 100 g

container : plastic sachet - **origin :** Japan

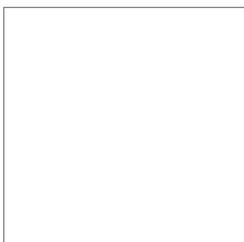

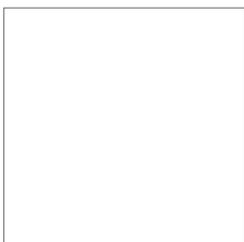

Ingredients : Roasted sesame, kuzu starch, sweet potato starch, gelling agent, maltodextrin.

Description : This sesame powder is a preparation for homemade tofu: 100 g of powder for 400 ml of water. Mix until there is no more lumps.

Keep mixing on high heat. When the mixture becomes sticky and compact lower the heat and continue to stir. Then pour the mixture into a rectangular cake tin and film with plastic. When the mixture cooled and became compact, sesame tofu is ready.

Use : Ideal in desserts such as ice-creams or bites coated in sesame for its soft texture. It is also very tasty with ponzu.

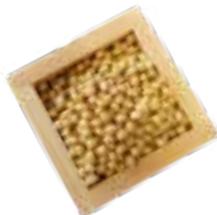

Preservation : Store in a cool and dry place, away from direct light.

Cereal and leguminous 1/2

160 - Organic konjac noodles - 500 g

container : plastic sachet - **origin :** Japan

Ingredients : Organic konjac, organic konjac powder, calcium hydroxyde. **Description :** Konjac noodles are made from konjac powder. This powder is obtained from the konjac tuber. The konjac tuber is really rich in fibers and very low in calories (3kcal for 100g). It fills up the stomach and lower the hunger feeling. It also helps blood sugar and cholesterol regulation. **Flavor :** Gelatinous texture, very rich in water, with a neutral taste. **Use:** Rinse well the konjac noodles before use. They must be seasoned with broths or sauces rich in taste because they have a neutral flavor. Konjac noodles are really resistant to heat so you can eat them cold or hot and even add them into a boiling hot soup for example. They will be delicious in a kimchi flavored broth or cooked with vegetables and soy sauce or even with salmon and a creamy sauce, lemon and dill.

Preservation : Store in a cool, dry place, away from light, in the fridge after opening.

Spices and condiments 1/3

574 - Shichimi - Osaka spice blend - 15 g

container : doypack - origin : Japan

Ingredients : Japanese red pepper, white Sesame, Sansho, Nori, green Shiso, Hempseed.

Description : In Japanese, Shichimi means "7 flavors", it is a mix made of high quality Japanese spices. Considered as very good for health, it is a typical seasoning in Japanese cooking.

Use : This very spicy mix adds flavor to any dish. It is often used in soups, noodles or to season salads or rice based dishes. It is also used to marinate white and red meats.

Preservation : Store in a cool, dry place, away from light.

216 - Budo Sansho - 250 g

container : doypack - origin : Japan

Ingredients : 100% sansho pepper.

Description : Cousins of Sichuan pepper, Sansho berries are known to be excellent natural preservative for meat and fish. These berries are dried in the same way as pepper.

Use : The whole berries can be used in soups, chicken stuffing, sauce base, or in a pepper mill to give freshness and acidity to your dishes and desserts such as fruit salad, fish, etc.

Preservation : Store in a cool, dry place, away from light. Properly close the zip after use.

Infusion: 2 minutes.**Preservation :** Store in a cool, dry place, away from light.**265 - Genmaicha with matcha - 20 sachets****container :** paper sachet with aluminium inside - **origin :** Japan**Ingredients :** Green tea, rice.**Description :** Genmaicha is usually sencha blended with puffed rice but this genmaicha was made with puffed rice, green tea leaves and green tea matcha. You can brew it many time without losing taste or color because the tea used is of high quality. It has a perfect balance between the taste of the green tea and the strong scent of the puffed rice. **Flavor :** It has a green and slightly toasted taste.**Use :** Brew it 2-3 min in hot water (85°C).**Preservation:** Store in a cool dry place, away from light.**268 - Matcha refill for Matcha Premium Set - 2 g****container :** aluminium sachet - **origin :** Japan**Ingredient :** Green tea.**Description :** Matcha refill sachet for matcha premium set. This premium matcha has a really profound and rich in umami taste. It was obtained from Kagoshima tencha tea reduced in powder with a millstone. **Flavor :** Onctueuse, légèrement amère et riche en umami. **Use :** Perfect for the traditional tea ceremony. Put 1 sachet (2g) of matcha in the bowl. Add 120-130 ml of hot water 70-80°C. Whisk slightly the matcha in order to scatter the powder at the bottom of the bowl. Then whisk more rapidly by moving your wrist back and forth. When foam appears your matcha is ready.**Preservation :** Store in a cool, dry place, away from light. Keep away from other product that may alterate the taste.**266 - Premium Matcha set****Composition :** Premium matcha (10 sachets x 2g), matcha bowl, whisk in bamboo. **Description :** This premium matcha has a really profound and rich in umami taste. It was obtained from Kagoshima tencha tea reduced in powder with a millstone. With the bowl «chawan» and the bamboo whisk «chasen» you can easily make a traditional tea just like the one drunk during the tea ceremony. This set is perfect to enjoy a moment of calm and serenity everywhere. **Use :** Put 1 sachet (2g) of matcha in the bowl. Add 120-130 ml of hot water 70-80°C. Whisk slightly the matcha in order to scatter the powder at the bottom of the bowl. Then whisk more rapidly by moving your wrist back and forth. When foam appears your matcha is ready. **Preservation :** Store in a cool, dry place, away from light. Keep away from other product that may alterate the taste.**267 - Gyokuro set****Composition :** Gyokuro green tea (10 sachets x 4g), a gyokuro saucer, two small cups.**Description :** This premium gyokuro was made with green tea from Chiran, one of the regions most famous for the cultivation of Kagoshima green tea. With the saucer also made in Kagoshima in a traditional way and the cups you could easily realise your own gyokuro tea, sweet and rich in umami. This set is perfect to enjoy a moment of calm and serenity whenever you are.**Use :** Put 1 sachet of gyokuro in the saucer. Add 40 ml of water at room temperature. Wait approximately 3 min for the leaves to absorb the water. Then fill in the cups. **Preservation :** Store in a cool, dry place, away from light. Keep away from other product that may alterate the taste.

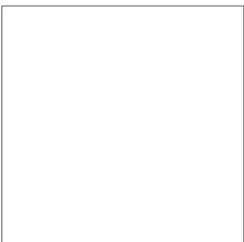

Accessories

	<p>500 - Kyusu Japanese Teapot - 200 ml container : clay - origin : Japan</p> <p>Description : Kyusu is a traditional Japanese teapot designed for the preparation of sencha. It has a built in filter, which allows to infuse the green tea several times.</p> <p>Preservation : Ideally, you should not mix different types of tea in a teapot so that the clay does not impregnate different scents. It is best to rinse with warm water immediately after use, but it can also be washed in a dishwasher.</p>
--	---

	<p>501 - Chasen Matcha Whisk 80 tines</p> <p>Description : The chasen is a small bamboo whisk essential in the preparation of matcha powdered tea.</p> <p>Use : It allows diluting matcha with water by whisking it energetically up and down.</p> <p>Preservation : Never put wet chasen in its plastic box, it is best to let it dry upside down so that the water drains well.</p>
--	---

	<p>504 - Special Tofu Nabe - Banrai nabe (size S)</p> <p>Description : In Japanese, «nabe» refers to a low saucepan, intended for water and steam cooking. Thanks to this nabe, Banrai soymilk and a dose of Jun-Nigari, you can prepare a delicious tofu in 10min.</p> <p>Use : Pour 50ml of water into the outer pot which is the base of the saucepan. Then insert the saucepan into the pot and pour 125ml of Banrai soy milk in it. Add a dose of Jun-nigari, mix and cover. Set fire to the solid firelighter placed under the pot in the stove. Your tofu is ready in 10min, when the solid firelighter has burned.</p> <p>The tofu made can be used for various dishes such as stew made with soy milk, soy desserts or smoothies.</p>
--	---

	<p>255 - Chasen Matcha Whisk for mugs</p> <p>Description : The chasen is a small bamboo whisk essential in the preparation of matcha powdered tea.</p> <p>Use : It allows diluting matcha with water by whisking it energetically up and down.</p> <p>Preservation : Never put wet chasen in its plastic box, it is best to let it dry upside down so that the water drains well.</p>

**353 - Sake Kiyomori Heian Nigori Kijoshu - 500 ml**

container : glass bottle - origin : Japan - 14°

Ingredients : Rice, koji, sake.**Description :** This Sake is a «kijoshu», meaning that the rice grains ferment in Sake and not in water, making it more syrupy. The term «nigori» refers to a sake with a cloudy aspect and a milky texture because of the yeast and rice particles remaining inside the sake after fermentation.**Flavor :** Kiyomori Heian Sake has a strong rice taste, a syrupy flavor, very rich in umami, with a long-finish.**Use :** It is better to enjoy it fresh, ideally as an aperitif or accompanying a dessert.**Preservation :** Store in a cool, dry place, away from light.**350 - Sake ryusei junmai daiginjo black label - 720 ml**

container : glass bottle - origin : Japan - 17°

Ingredients : Rice (Yamada-nishiki), koji.**Description :** It is a high quality « junmai » sake, which means the alcohol was only produced using fermentation. Moreover, it is a « Daiginjo »: grains of rice have been polished to the point that only 50% of the grain is left. **Flavor :** This sake has a strong rice flavor. It is slightly acid with a rich taste.**Use :** Ideal with raw fish (sashimi, tartare), sushis, and even some types of cheese.**Preservation :** Store in a cool, dark and dry place.**351 - Sake ryusei junmai daiginjo bekkakuhin - 720 ml**

container : glass bottle - origin : Japan - 17°

Ingredients : Rice (Yamada-nishiki), koji.**Description :** It is a high quality « junmai » sake, which means the alcohol was only produced using fermentation. Moreover it is a « Daiginjo »: grains of rice have been polished to the point that only 40% of the grain is left, the heart of the grain, richest in starch part. **Flavor :** This junmai daiginjo has a really subtle flavor.**Use :** It can be enjoyed cold or at room temperature. We recommend this sake with lobster, caviar or raw fish.**Preservation :** Store in a cool, dark and dry place.**355 - Sake Hakuko Junmai Yodanjikomi red label - 720 ml**

container : glass bottle - origin : Japan - 15,5°

Ingredients : Rice, koji.**Description :** This sake comes from Hiroshima prefecture. It is a « junmai » sake, which means the alcohol was only produced using fermentation. The polishing of rice grains (70% left) makes it a high quality sake. It can be enjoyed at any temperature : cold, room temperature or warm. It received the gold medal from IWC (International Wine Challenge) 2014. **Flavor :** It has a well balanced taste between sweetness and acidity.**Use :** This sake goes specially well with fish and seafood.**Preservation :** Store in a cool, dark and dry place.**371 - Sake Hakuko Junmai Yodanjikomi red label - 1800 ml**

container : glass bottle - origin : Japan - 15,5°

Ingredients : Rice, koji.**Description :** This sake comes from Hiroshima prefecture. It is a « junmai » sake, which means the alcohol was only produced using fermentation. The polishing of rice grains (70% left) makes it a high quality sake. It can be enjoyed at any temperature : cold, room temperature or warm. It received the gold medal from IWC (International Wine Challenge) 2014. **Flavor :** It has a well balanced taste between sweetness and acidity.**Use :** This sake goes specially well with fish and seafood.**Preservation :** Store in a cool, dark and dry place.**356 - Sake Hakuko Junmai Ginjo blue bottle - 300 ml**

container : glass bottle - origin : Japan - 15,5°

Ingredients : Rice, koji.**Description :** This sake, with a polishing of 60% is made with really pure water extracted from a dug by the brewery. It is a « junmai » sake, which means the alcohol was only produced using fermentation. It can be enjoyed at any temperature : cold, room temperature or warm. It received the gold medal from IWC (International Wine Challenge) 2014. **Flavor :** It has a well slightly iodine taste that can be enhanced by adding the Yoshino cedar included.**Use :** This sake goes specially well with fish and seafood.**Preservation :** Store in a cool, dark and dry place.**365 - Sake Kamotsuru Daiginjo Tokusei Gold - 180 ml**

container : glass bottle - origin : Japan - 16,4°

Ingredients : Rice, koji, alcohol, gold leaves.**Description :** This sake is a Daiginjo : rice has been polished at 50%. It gives the sake a really good subtlety. Instead of water, alcohol has been used with rice and koji. This Daiginjo was first sold in 1958. It contains two gold leaves. When President Obama came to Japan in 2014, this sake had been served during his dinner with Japanese Prime minister Abe.**Flavor :** Fruity and dry. **Use :** This sake has a slight alcoholic touch that makes it the perfect match for high quality dishes such as caviar or fishes (like turbot or john-dory). **Preservation :** Store in a cool, dry place, away from light, refrigerate after opening.

Drinks, sake and Japanese liqueurs 2/3

357 - Umeshu Plum Liqueur Hakuko Tsuyahada black label - 500 ml

container : glass bottle - origin : Japan - 10°

Ingredients : Sake (junmai ginjo), ume (Japanese plum), fructose.

Description : In contrast to conventional umeshu or plum liqueurs, plums used in this umeshu are locally grown and they are soaked in Japanese sake (Junmai Ginjo) made from extremely soft water. This umeshu will be appreciated even by people who do not like sake. It contains fewer calories since it uses fructose instead of sugar.

Flavor : It has a sweet and at the same time round apricot taste Use : Ideal with ice for an aperitif.

Preservation : Store in a cool, dry place, away from light, refrigerate after opening.

358 - Clear Umeshu Plum Liqueur «Shakujo no Ume» - 720 ml

container : glass bottle - origin : Japan - 10,4°

Ingredients : Ume (Japanese plum), sugar, alcohol.

Description : This umeshu has a pronounced fruit flavor, which makes it very refreshing and it can go very well with different types of dishes.

Flavor : It has a soft and very fruity taste.

Use : Ideal with ice for an aperitif.

Preservation : Store in a cool, dry place, away from light, refrigerate after opening.

359 - Unclear Umeshu Plum Liqueur Nigori «Shakujo no Ume» - 720 ml

container : glass bottle - origin : Japan - 10,4°

Ingredients : Ume (Japanese plum), sugar, alcohol, Junmai sake, white peach.

Description : This umeshu comes from a combination of umegenshu green plums of one year old and ripe umegenshu plums of two years old. It is distinguished by its rich aroma of ripe fruit, combined with the freshness of green plums. Mashed ripe plums and white peaches are also added to the umeshu . Plums come from Wakayama and peaches are from Yamanashi.

Flavor : It has a well balanced fruity taste. Use: Ideal with ice for an aperitif.

Preservation : Store in a cool, dry place, away from light, refrigerate after opening.

360 - Hijiri Yuzushu - 500ml

container : glass bottle - origin : Japan - 8°

Ingredient: Yuzu juice, sugar, alcohol.

Description: This yuzushu is the subtle blend of yuzu and sake juice.

Flavor: It has a well balanced flavor, between yuzu sweetness and acidity.

Use: Ideal as an aperitif with ice cubes.

Preservation: Store in a cool, dry place, away from light.

362 - Sake Kamotsuru Junmai Ginjo Itteki Nyukon - 300 ml

container : glass bottle - origin : Japan - 15,3°

Ingredients : Rice, koji.

Description : The ginjo is a delicate sake with a subtle flavor thanks to its high percentage of rice polishing. This sake is thicker and has a polishing of 60%.

Flavor : Smooth and light, it is not acidic.

Use : It is better to enjoy it fresh or at room temperature and it would be perfect with sashimis, tartares, sushis or cheeses.

Preservation: Store in a cool, dry place, away from light.

366 - Sake Kamotsuru Junmai Ginjo Itteki Nyukon - 720 ml

container : glass bottle - origin : Japan - 15,3°

Ingredients : Rice, koji.

Description : The ginjo is a delicate sake with a subtle flavor thanks to its high percentage of rice polishing. This sake is thicker and has a polishing of 60%.

Flavor : Smooth and light, it is not acidic.

Use : It is better to enjoy it fresh or at room temperature and it would be perfect with sashimis, tartares, sushis or cheeses.

Preservation: Store in a cool, dry place, away from light.

In this ancestral process the lactic acid needed to ferment the sake comes from bacterias that developed naturally in the shubo which is the mix of rice, water, koji and yeast. The kimoto process gives the sake more complex flavors. It is a «junmai» sake, which means the alcohol was only produced using fermentation. Moreover, «ginjo»: grains of rice have been polished to the point that only under 60% of the grain is left. **Flavor :** Sweet, with a nice acidic taste.**Use :** This sake goes specially well with fermented products such as cheese or with fish and shellfish rich in taste like seriola or oysters. It can be enjoyed between 10 and 45°C, throughout the meal. **Preservation :** Store in a cool, dark and dry place.

Drinks, sake and Japanese liqueurs 3/3

	<p>590 - Sake Koimari Sumiyama ginjo - 720ml container : glass bottle - origin : Japan - 16°</p> <p>Ingredient : Rice, koji. Description : This is a junmai ginjo made through collaboration between rice growers and sake producers. This sake is locally produced, with the rice cultivated in the montain next to the brewery. Flavor : It is a sake slightly sparkling and full-bodied, with a good acidity and a thirst-quenching facet. Use : Sumiyama sake is elegant and versatile. It goes well with spicy beef tartare, a starter with melon and cured ham or cheese platter. It is better to enjoy it cool (15°C). Preservation : Store in a cool, dark and dry place.</p>
	<p>589 - Sake Tokubetsu Honjozo Karakuchi Kinpa - 720 ml container : glass bottle - origin : Japan - 15°</p> <p>Ingredient : Rice, koji, alcohol. Description : It is a sake easy to drink with a pure taste. It is produced by a brewer established in Saga since 1688. It is a karakuchi sake, in other words a dry sake, which is quite unusual in this region. This sake is perfect to discover Japanese sakes. Flavor : Dry, almost spiced, pure, with a mushroom nose. Use : Perfect to accompany fried dishes, BBQ or as a base for cocktails such as kir. Enjoy at room temperature or hot (40-50°C). Preservation : Store in a cool, dark and dry place.</p>
	<p>588 - Sake Munemasa Junmai Ginjo - 720 ml container : glass bottle - origin : Japan - 15°</p> <p>Ingredient : Rice, koji. Description : A junmai ginjo sake very well balanced. Grains of rice have been polished at 55%. It is produced with a mix of two different rice varieties: the well known sake rice yamadanishiki and an other variety from Saga region. The Munemasa sake is perfect to discover Japanese sake. Flavor : Full-bodied, fruity, with a sweet taste and a great long finish. Use : Better when enjoyed very cool (5-10°) as a pre-drink, as a dessert wine, with goat cheese or with a tasty dish like foie gras. Preservation : Store in a cool, dark and dry place.</p>
	<p>271 - Sake Madonoume Junmai Ginjo - 720 ml container : glass bottle - origin : Japan - 15°</p> <p>Ingredient : Rice, koji. Description : Sake junmai ginjo brewed from Saga sagano hana rice. The rice grains have been polished at 55%, that gives this sake a subtle taste. Flavor : Slightly sweet and alcoholic, a subtle flavor with a pronounced rice taste. Use : You can enjoy this sake cool, at room temperature and even warm until 40°C. It goes well with fine ingredients and delicate dishes. When warmed, its flavor will intensify and it will accompany well richer dishes such as smoked meat, marinated poultry, tempura or fried dishes. Preservation : Store in a cool, dark and dry place.</p>
	<p>272 - Sake Madonoume Tokubetsu Junmai - 720 ml container : glass bottle - origin : Japan - 15°</p> <p>Ingredient : Rice, koji. Description : This is the second sake produced by the Madonoume brewery with Saga rice, sagano hana. The rice is a little bit less polished (60%), that gives a sake with a stronger rice flavor. Flavor : Good long finish with a nice acidity, strong flavor. Use : Thanks to its strong flavor it goes easily with tasty dishes such as fermented, fried or cooked in sauce dishes, and also grilled chicken or butter cooked salmon. You can serve it cold or hot (until 45°C). Preservation : Store in a cool, dark and dry place.</p>
